THE SKY REIMAGINED

Architectural daylight
systems inspired by nature.

ARCHITECTURAL
COLLECTION

www.zenith-sky.com

MORE THAN LIGHT.

Bringing the visual
experience of natural
daylight indoors.

At Zenith Sky Tech, we believe that light
should do more than simply illuminate a
room.

Working in partnership with
Yuer Intelligent Technology, We design
architectural lighting systems that
transform enclosed interiors into bright,
inspiring environments.

Designed for architects, designers,
healthcare environments, Spa, Hotels,
any commercial spaces and premium
residential projects, our solutions
combine innovative optical engineering,
intelligent lighting control and elegant
architectural smart integration.

Every installation is created to
transform enclosed spaces into
brighter, more inspiring environments.

ARCHITECTURAL LIGHTING.
INSPIRED BY NATURE.

ENGINEERED FOR LONGEVITY

Our advanced daylight systems are engineered to deliver a more natural, healthier and inspiring environment for every space.

FLICKER FREE

Engineered for visual comfort with flicker-free technology that reduces eye strain and fatigue.

SUPPORTS PLANT LIFE

Full-spectrum daylight that helps plants thrive and creates healthier, more vibrant indoor spaces.

RAYLEIGH SCATTERING

Advanced optical technology recreates the natural blue sky, just like real daylight.

HIGH CRI

High Colour Rendering Index (CRI) delivers true-to-life colours and exceptional visual clarity.

SUNRISE - DAYLIGHT - SUNSET

Dynamic lighting cycle that follows the natural rhythm of the sun to support mood, focus and wellbeing.

SMART CONTROL

Adjust brightness, colour temperature and mode easily via app or remote for any environment.

BUILT TO LAST

Premium materials, rigorous quality control and a 3-year warranty for complete peace of mind.

ABOUT

ZENITH SKY TECH

Delivering premium architectural daylight solutions

Zenith Sky Tech is the official UK & Ireland partner of Yuer SkyLight, a world leader in daylight simulation technology. We deliver innovative, high-quality sunlight lighting solutions that enhance **wellbeing**, **productivity** and the **visual experience** of any indoor environment.

With local presence, dedicated service and a passion for excellence, we work with businesses and individual customers alike – from concept to installation and beyond.

B2B SOLUTIONS

Commercial projects, architects, designers and contractors.

EXPERT SUPPORT

UK-based team providing advice, guidance and after-sales care.

B2C SOLUTIONS

Residential projects and private homes.

PREMIUM QUALITY

Products built to the highest standards with 3-year warranty.

Trusted partner for **businesses** and **individuals** seeking premium daylight solutions.

YOUR PROJECT.

OUR RESPONSIBILITY.

From the first consultation to the final installation, we take care of everything.

Zenith Sky Tech delivers **complete daylight solutions** tailored to your space, on time and to the highest standards.

One team. One contact. One complete solution – designed to enhance **wellbeing, productivity** and the **visual experience** of your environment.

FREE CONSULTATION

We listen to your needs and provide expert advice with no obligation.

BESPOKE DESIGN

Customize lighting and ceiling solutions created around your vision.

PROFESSIONAL INSTALLATION

Our experienced installers ensure perfect integration and finish.

3-YEAR WARRANTY & UK AFTERCARE

Premium quality and reliable support before, during and after installation.

“ We manage every detail so you can focus on your vision. From start to finish, your project is in safe hands.

OUR PROCESS.

YOUR PEACE OF MIND.

We follow a proven approach to deliver seamless daylight solutions from concept to completion.

COMMERCIAL PROJECTS

- Offices
- Healthcare
- Retail
- Spa
- Hospitality
- Education
- Public Buildings

RESIDENTIAL PROJECTS

- Homes
- Extensions
- Basements
- Kitchens
- Living Areas
- Conservatories

ONE TEAM

A dedicated team managing your project from start to finish.

ONE CONTACT

A single point of contact for a smooth and simple experience.

ONE COMPLETE SOLUTION

We take care of everything – design, supply, installation and aftercare.

BUILT TO LAST

Premium quality, rigorous standards and 3-year warranty.

FROM CONCEPT TO COMPLETION

WE DELIVER DAYLIGHT. WE DELIVER EXCELLENCE.

ABOUT YUER INTELLIGENT TECHNOLOGY

A WORLD LEADER IN ARTIFICIAL DAYLIGHT TECHNOLOGY

Founded in 2014, Yuer Intelligent Technology is a national high-tech enterprise and the global pioneer in the development and manufacturing of artificial daylight systems.

Through continuous innovation, advanced R&D and strict quality control, we deliver products that faithfully recreate the beauty of natural daylight and improve the quality of life in any interior environment.

Our solutions are trusted by customers in over 50 countries worldwide across commercial, healthcare, education and residential sectors.

INNOVATION

Driven by research and innovation with 20+ patents in daylight simulation technology.

GLOBAL PRESENCE

Products exported to over 30 countries worldwide.

DEDICATED TEAM

A passionate team of professionals committed to creating better light for a better life.

Our mission is simple:

to bring the experience of natural daylight into every space and enhance the well-being of people around the world.

MANUFACTURING EXCELLENCE.

INNOVATION DRIVEN.

Yuer Intelligent Technology combines advanced manufacturing capabilities with continuous innovation to deliver world-class artificial daylight solutions.

ADVANCED MANUFACTURING

Our modern manufacturing facilities are equipped with fully automated production lines and precision machinery to ensure efficiency, consistency and superior quality at every stage of production.

RESEARCH & DEVELOPMENT

A dedicated R&D team of engineers and technicians is working to develop optical technologies, control systems and innovative solutions that recreate the beauty of natural daylight indoors.

GLOBAL QUALITY STANDARDS

Our products are designed and managed in accordance with international standards and undergo rigorous testing to ensure performance and long-term reliability.

TRUSTED WORLDWIDE

With more than 30 countries worldwide using Yuer Skylight products, we are trusted by partners in all sectors

2014

FOUNDED

More than 10 years of expertise and innovation.

20+

PATENTS & TECHNOLOGIES

Continuous investment in R&D and innovation.

Products trusted by partners and customer's globally.

50,000 M²+

MANUFACTURING FACILITIES

Large-scale production capacity and modern facilities.

200+

SKILLED PROFESSIONALS

Experienced team dedicated to quality and innovation.

THE PROBLEM IS EVERYWHERE.

THE SOLUTION IS HERE.

Most modern spaces lack natural daylight. Our Artificial Skylights bring the feeling of the open sky indoors – improving wellbeing, focus, productivity and comfort.

NO NATURAL DAYLIGHT

Windowless spaces feel dark, closed in and uninspiring.

HIGH ENERGY COSTS

Dark environments require more artificial lighting all day long.

LOW WELL-BEING

Lack of daylight can affect mood, increase fatigue and reduce comfort.

LOW PRODUCTIVITY

Poor light reduces focus, motivation and overall work performance.

DISRUPTED RHYTHM

No exposure to natural light can interfere with sleep patterns and circadian rhythm.

THE PROBLEM WITH LED LIGHTING

THE SOLUTION WITH OUR ARTIFICIAL SKYLIGHTS

Realistic daylight experience

well-being and comfort

Boosts focus and productivity

Energy efficient and sustainable

24/7 daylight anytime, anywhere

DAY MODES.

SUNRISE - DAYLIGHT - SUNSET.

The beauty of natural light is in its constant change.

From the soft warm tones of sunrise, through the clear brilliance of daylight, to the calming calm glow of sunset - each moment of the day has a unique impact on how we feel and live.

Our smart systems replicate this natural rhythm with stunning accuracy, bringing the benefits of daylight into an interior.

Dynamic
Color
Temperature

Smooth
Transitional

Adjustable
Brightness

NATURAL LIGHT, PERFECTLY RECREATED

SUNRISE

Warm • Gentle • Awakening

A soft, warm light to gently start your day.

Soft, warm tones gently increase in brightness, simulating the natural sunrise. Helps your body wake up, naturally and starts your day with positive energy.

DAYLIGHT

Clear • Bright • Focused

Bright, natural light for focus and productivity.

Crisp, natural daylight at its peak. Supports concentration, productivity and mental clarity — ideal for work, study and active environments.

SUNSET

Warm • Calming • Relaxing

A warm, relaxing glow to unwind and recharge.

Light gradually shifts to warm amber tones, helping your body relax in the evening and prepare for rest and better sleep.

SMART CONTROL, TOTAL FLEXIBILITY.

Adjust your light to match your mood, activity or time of day.

Mobile App - control from anywhere

Remote Control - simple and convenient

Wall Panel - elegant and intuitive

Schedules & Timers - automate your day

Dimming & CCT - fine tune brightness and colour temperature

THE POWER OF NATURAL RHYTHM

Regulates circadian rhythm and improves sleep quality.

Enhances mood, reduces stress and supports mental wellbeing.

Boosts concentration, productivity and overall performance.

Creates visual comfort and reduces eye fatigue.

DESIGNED FOR WELLBEING

Every detail is engineered to create spaces that look beautiful, feel natural and support the health and happiness of everyone inside.

WHY DAYLIGHT MATTERS

"Although we spend most of our time indoors, we are still, outdoor animals".

Nick Baker – The Daylight (2009)

Inspired by the qualities of natural daylight, Zenith Sky systems are designed to help create brighter, more comfortable and visually engaging indoor environments.

Visual Comfort

Human vision evolved under natural daylight conditions, making daylight one of the most comfortable and familiar lighting environments for the human eye

Physical Wellbeing

Natural daylight plays an important role in regulating the body's internal clock, influencing daily physiological processes and sleep-wake cycles

Mental Wellbeing

Bright, daylight-inspired environments can help create spaces that feel more uplifting, welcoming and enjoyable to spend time in.

LIGHT AND HEALTH

— EXPLANATION

Light is a fundamental regulator of our biology. It shapes our perception, influences how we feel and think, and directly supports our natural rhythms, wellbeing and recovery.

Our advanced skylight systems are designed to recreate the visual experience of natural daylight, supporting visual comfort, circadian-friendly lighting and a pleasant indoor environment.

HOW LIGHT AFFECTS THE BODY

WHY QUALITY DAYLIGHT MATTERS

BUILT-IN WELLBEING

Natural light contributes to a healthier body, clearer mind and stable energy levels.

NATURAL RESET

Daylight exposure helps reduce fatigue and supports faster recovery.

SUSTAINABLE BY NATURE

Harnessing daylight reduces dependence on artificial lighting and saves energy.

BETTER SPACES

Well-designed lighting can improve perceived comfort and spatial quality.

KEY PHYSIOLOGICAL BENEFITS

CIRCADIAN RHYTHM REGULATION

Supports the body's internal clock for better sleep—wake balance and hormonal harmony.

FOCUS & COGNITIVE PERFORMANCE

Improves attention, memory and productivity through optimal daylight exposure.

MOOD & MENTAL WELLBEING

Natural light enhances mood, reduces stress and supports emotional balance.

VISUAL COMFORT

Delivers balanced light that reduces eye strain and supports long-term visual comfort.

HORMONAL SUPPORT

Helps regulate hormones such as melatonin and cortisol for overall health and balance.

“ Light is not just about visibility. It is about how we live, feel and perform every day. ”

TECHNOLOGY BEHIND THE SKY. RAYLEIGH SCATTERING.

Our sunlight systems use the science of Rayleigh scattering to recreate the natural appearance and benefits of daylight indoors.

WHY IS THE SKY BLUE?

Rayleigh scattering occurs when sunlight interacts with tiny molecules in Earth's atmosphere. Shorter wavelengths of light (blue) are scattered in all directions more than longer wavelengths (red), making the sky appear blue during the day.

WHY RED AT SUNRISE AND SUNSET?

When the sun is low on the horizon, its light travels through more atmosphere. Most of the blue light is scattered away, leaving longer w/volitenth (reds, and wvols) sunrise and sunset colours.

SUN

THE SOLAR SIMULATOR PRINCIPLE

The diameter of the sun is much larger than the Earth's sunlight.

Reach Earth as parallel light.

Oxygen and nitrogen molecules in the atmosphere.

Blue light is scattered in all directions.

We see the blue sky.

LIGHT-EMITTING DEVICE

RAYLEIGH SCATTERING PRINCIPLE

ARTIFICIAL BLUE SKY

OUR TECHNOLOGY

YULER Skylight LED systems use a collimated light optical system and precisely tuned LED spectrum to accurately replicate the natural daylight experience, supporting wellbeing, mood and productivity in an space.

COMPARISON OF SPECTRUM (5700K)

THE DIFFERENCE IS IN THE SPECTRUM

Light quality is defined by its spectrum, not just color temperature. YuerSky technology delivers a balanced spectrum similar to natural daylight, not just a warmer version of the same limited range.

High blue peak
Low red output
Unbalanced spectrum
Can cause eye strain and fatigue

Balanced spectrum
High blue for alertness
Strong green for clarity
Full red output
Most similar to daylight

Natural sunlight spectrum
The benchmark for healthy, natural light

PRECISE SPECTRUM • REAL DAYLIGHT EXPERIENCE

By combining multiple light sources and advanced optical design, our systems replicate the full daylight spectrum, delivering a comfortable, natural and healthy environment.

TIMELESS SPACES, MODERN LIGHT

Our technology brings the beauty of natural daylight into historic interiors. The perfect harmony of advanced technology and timeless architecture enhancing every detail with warmth, depth, and an open, uplifting atmosphere.

Ultra-Thin PY - Series

PY - SERIES

DESIGNED TO ENHANCE EVERYDAY PERFORMANCE

The PY Series brings the benefits of natural daylight into the workplace, helping to create an environment that supports focus, reduces fatigue and elevates overall wellbeing.

A brighter workspace for better productivity.

BRIGHTER DAYS. BETTER PERFORMANCE.

In the UK, we experience long, dark winter months and many overcast, rainy days. This lack of natural light can impact mood, energy levels and productivity.

WE CAN HELP YOUR BUSINESS

The PY Series recreates the feeling of natural daylight, helping your team stay energised, focused and motivated throughout the day - just as they are on bright, sunny days.

A balanced lighting environment minimises eye strain and supports long-term wellbeing.
